INTRODUCTORY COMMENTS

In this response, the claims 2-4 have been amended to overcome the objections and the rejections under 35 USC § 112, second paragraph. Independent claim 5 has been amended to call for the address which are obtained via the decoding of the scanned document are different from that at which the document was initially received. Claims 15, 20, 22 24, 25 and 27 have been amended to call for the communication mark to be a non-text/image type mark. This differentiates over the arrangement disclosed in Witek which ignores such data and focuses on text material which can be read using OCR. The claims rejected as being anticipated by Cass are left unamended and the shortcomings of the disclosure of this reference vis-à-vis the claim language are pointed out.

The rejections under 35 USC § 103 are traversed in that the teachings of the references when taken as a whole would not lead the hypothetical person of ordinary skill to the claimed subject matter and in that proper motivation has not been established in accordance with the § 103 statute.

New dependent claims 29 – 33 have been added. Claim 29 calls for document of claim 5 to be a fax and for the fax to be sent back to the sending party. Claim 30 calls for the communication mark to be a non-text/communication mark. Claims 31-33 all for the address data to be obtained directly from the communication mark.
